# Sandal Collection 2025

# Feel the essence of summer with Suecos!

Enjoy summer with our sandal collection, combining comfort, style, and freshness.

## Insole Reflexology

The Reflexology insole is inspired by the foot reflexology technique, designed to stimulate specific areas of the foot through strategic pressure points. This stimulation helps relieve tension and reduce body discomfort, promoting an overall sense of well-being. Made with soft and flexible materials, it ensures maximum comfort with every step.

## Insole Soft

Our Soft insole adapts perfectly to the foot thanks to its exclusive dual-foam system. This technology provides exceptional comfort with every step, offering a unique sensation of softness and cushioning. Additionally, it effectively absorbs impacts while walking, ensuring a lighter and more comfortable experience with each step.

# Viky

## Timeless elegance and unmatched comfort

- Classic and bold
- Genuine leather
- Reflexology insole

Discover the perfect balance between discreet luxury and supreme comfort with our Viky sandals. Designed for those who value sophistication in every detail, they combine high-quality materials with an ergonomic design that gently wraps the foot with both style and comfort.

They feature a wide last that provides more freedom for the toes, along with a flexible dual-layer EVA sole that absorbs impacts and adds lightness to every step.

Additionally, they come with a reflexology insole designed to stimulate key points on the sole of the foot, promoting overall bodily well-being.

### Wide last

Provides greater freedom and comfort for a natural, relaxed stride.

### Cushioning and lightness

Flexible dual-layer EVA sole that offers optimal cushioning and lightness for enhanced comfort.

### Ergonomic design

Adapts to the shape of the foot, providing a comfortable and stylish fit.

### Style versatility

Elegant design with high-quality materials for a sophisticated and comfortable experience

### Reflexology insole

Estimula los puntos de presión en los pies, ayudando a reducir malestares corporales.

### High-quality leather

Material suave y respetuoso con la piel, pensado para ofrecer confort duradero.

# Vind

## Versatile elegance with absolute comfort

- Metallic tones
- Reflexology insole
- Adjustable straps

The Vind sandals combine sophistication and well-being, featuring a versatile design with two adjustable straps that ensure a perfect fit. The elegant buckles add a modern and refined touch, making them suitable for any occasion.

Their reflexology insole with dual foam stimulates pressure points on the foot, helping to reduce fatigue and improve overall well-being. The ultralight dual-layer EVA sole absorbs impacts, providing a comfortable stride.

### Dual adjustable straps

Allows for a secure and personalized fit for greater stability.

### Cushioning and lightness

The flexible dual-layer EVA sole absorbs impacts and adds lightness, offering more comfort with every step.

### Ergonomic design

Molds to the foot's contours, providing an ergonomic and stylish fit.

### Style versatility

Its modern and elegant design makes the sandals easy to pair with a variety of outfits, from casual looks to more formal occasions.

### Reflexology insole

Stimulates pressure points on the feet, helping to reduce body discomfort.

### High-quality materials

Ensure durability, resistance, and prolonged comfort.

# Bris

## Anatomical comfort and customizable fit

- Vibrant colors
- Reflexology insole
- Adjustable straps

Feel the energy of summer with Bris, sandals designed to provide freedom, style, and well-being with every step. Their slightly wide last allows the feet to rest comfortably, while the two adjustable straps ensure a more personalized fit.

The reflexology insole stimulates pressure points, helping to reduce fatigue and body discomfort. The anatomical base made of natural cork and double-density rubber provides ergonomic support, while the ultralight dual-layer EVA sole absorbs impacts for a more comfortable stride.

### Wide last

Provides greater comfort and freedom for the toes.

### Dual adjustable straps

Offers stability and a customized fit.

### Dual-layer EVA sole

Ultralight, flexible, and highly shock-absorbent.

### Freshness and color

Perfect for enjoying summer with freedom and style.

### Reflexology insole

Stimulates pressure points and helps reduce fatigue.

### Anatomical base

Combines natural cork and double-density rubber for ergonomic support.

# Ros

## Height, style, and comfort with every step

- Shiny
- Soft insole
- With wedge
- Back strap

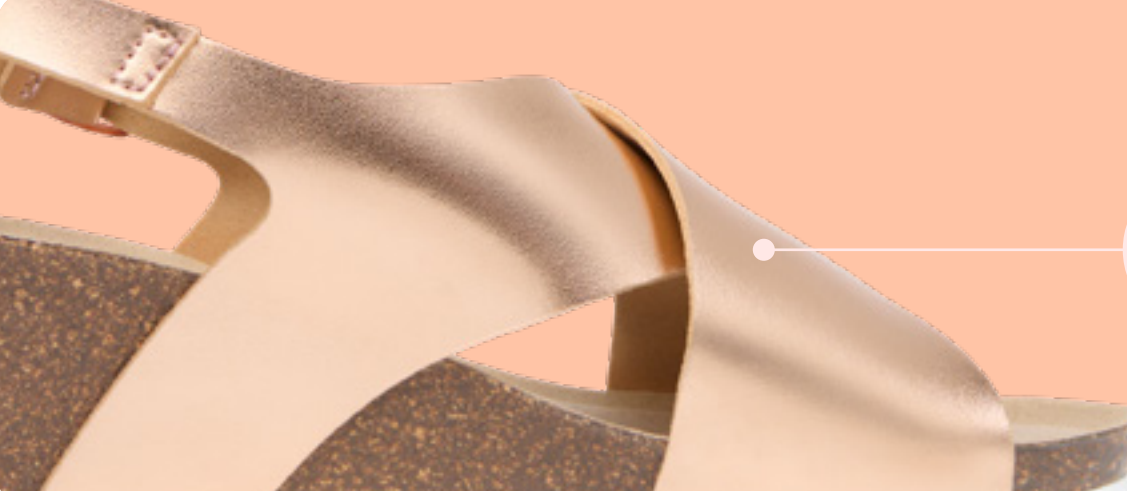

The Ros sandals combine elegance and comfort, offering height without compromising stability. Their anatomical last adapts to the foot with softness, while the metallic finish adds a sophisticated touch for any occasion.

The 5 cm cork wedge absorbs impacts, and the Soft insole with dual cushioning provides a comfortable step throughout the day. Additionally, the adjustable back strap ensures a secure and personalized fit.

**Height and elegance**

5 cm cork wedge that absorbs impacts and provides subtle elevation with maximum stability.

**Premium microfiber**

Soft to the touch and gentle on the skin, offering comfort and durability.

**Anatomical last**

Gently adapts to the shape of the foot, providing comfort and support.

**Sophisticated metallic finish**

An elegant and versatile design, perfect for any occasion.

# Sol

## Ergonomic design, perfect fit

- ⊗ Premium leather
- ⊗ Stability
- ⊗ Soft insole
- ⊗ Medium wedge

The Sol sandal combines high-quality elastic leather with a braided tubular design, allowing for a flexible fit for various foot widths and shapes, preventing chafing and pressure points.

Its Soft insole made of dual foam, covered in premium leather, absorbs impacts and ensures a comfortable stride. Additionally, its odor-resistant properties help keep feet fresh.

The rear Velcro closure provides stability and ease of adjustment. It is ideal for sensitive feet, bunions, hammer toes, and high arches.

### Protection against chafing

Its design with inverted seams prevents discomfort and offers greater comfort throughout the day.

### Thermoplastic rubber sole

Lightweight, flexible, and with slip-resistant properties for better safety and freedom of movement.

### Soft dual-foam insole

Absorbs impacts and provides a comfortable step for prolonged comfort.

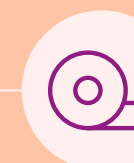

### Odor-resistant insole

Keeps feet fresh and dry, ensuring a lasting feeling of freshness.

### Adaptable braided tubulars

Constructed with flexible tubulars that adapt to various foot widths and shapes, offering a comfortable and natural fit.

### Rear velcro closure

Facilitates a personalized fit and provides greater stability with every step.

# Blomma

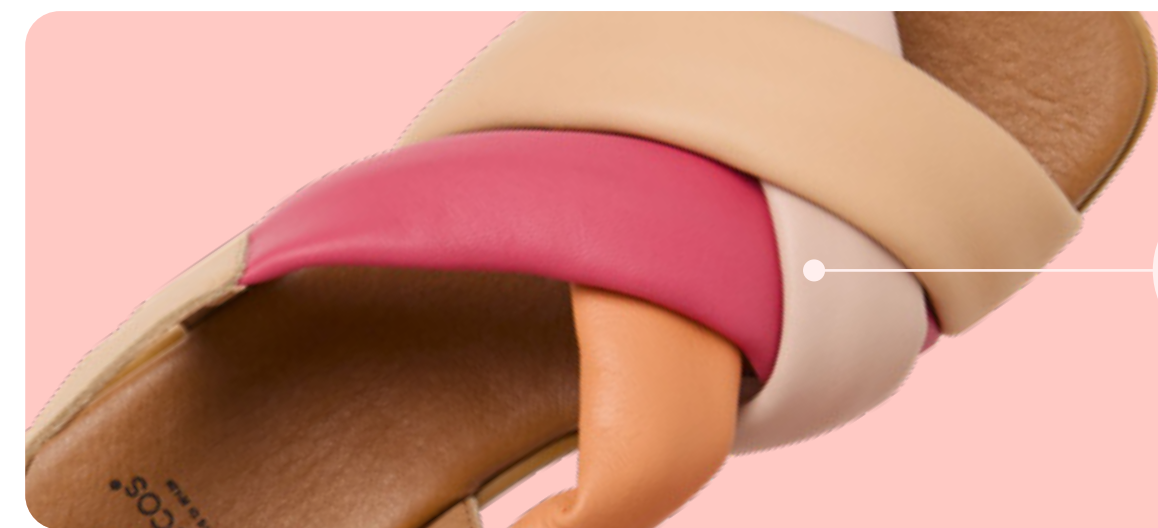

## Softness for sensitive skin

➤ Genuine leather ➤ Soft insole ➤ Medium wedge ➤ Elastic heel

Blomma, the braided tubular sandal with inverted seams from Suecos®, is designed to adapt to different foot widths and shapes. Its tubular construction ensures a flexible fit, preventing chafing and friction.

The enhanced padding in the straps provides extra softness, while the elastic heel ensures an optimal fit and stability. Ideal for sensitive feet, hammer toes, and bunions.

 **Adaptable tubular construction**

Adjusts to various foot widths and shapes, providing increased flexibility and comfort.

 **Elastic back strap**

Elastic in the heel for easy adjustment and enhanced comfort.

 **Soft foam and leather insole**

Provides superior cushioning and a soft, comfortable step.

 **Freshness and anti-odor**

Keeps feet fresh and dry all day long.

**Blomma Coral**

➤ Size . talla 36 - 41

 **Inverted seams**

Specifically designed to prevent chafing and friction, ensuring a smooth, irritation-free feel.

 **Slip-resistant thermoplastic rubber sole**

Lightweight, flexible, and with anti-slip properties for better safety and freedom of movement.

**Blomma Gold**

➤ Size . talla 36 - 41

# Ek

## Classic design and natural comfort

- Genuine leather
- Soft insole
- Adjustable straps

The EK sandals combine premium leather, a wide last, and a natural cork base, offering a comfortable fit, lightness, and impact absorption.

Its Soft insole with dual cushioning provides support and comfort, while the flexible dual-layer EVA sole enhances stability. The two adjustable straps ensure a secure and personalized fit.

### Premium leather

Soft to the touch and durable, providing comfort and resilience.

### Wide last

Offers greater comfort and freedom for the toes, preventing unnecessary pressure.

### Natural cork base

Light and breathable, providing stability and freshness.

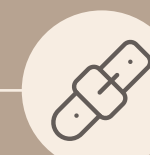

### Dual-layer EVA sole

Flexible and shock-absorbing, reducing pressure while walking.

### Soft dual-cushioned insole

Absorbs impacts and adds stability for a more comfortable step.

### Adjustable straps

Ensure a secure and comfortable fit, adapting to different foot types.

# Leif

## Contemporary design with absolute comfort

- Genuine leather
- Soft insole
- Adjustable back strap

The Leif sandals combine modernity and versatility in a carefully crafted design to offer maximum comfort and a secure fit. Made from genuine leather, the adjustable back strap allows for a perfect fit for different foot shapes, providing stability with each step.

Its Soft insole with dual foam, covered in microfiber, guarantees a smooth step and excellent shock absorption, making them ideal for daily use.

### Ergonomic design

Offers prolonged comfort throughout the day, perfect for daily wear.

### Microfiber insole lining

Breathable material that enhances freshness and softness with each wear.

### Modern and versatile

Designed to combine style and comfort for any occasion.

### Premium leather

Durable and flexible material that provides longevity and an elegant finish.

### Soft dual-foam insole

Absorbs impacts and guarantees a smooth step for added comfort.

### Adjustable back strap

Allows for a personalized fit, providing stability with each step.
